SMALL DUMPSTER PROGRAM

Our new 12-yard roll-off dumpster is just what you need for downsizing, landscaping, home renovation, deck tear downs, relocation and other household projects.

HOLDS 4 TRUCKLOADS!

\$350 (INCLUDES RENTAL*, ONE HAUL, & 3 TONS OF DISPOSAL)

**Maximum 3-Day Rental*

HOME RENOVATION

Have you been putting off home improvement projects? Whether you have one big project or several smaller projects, the 12-yard dumpster is the ideal size for your waste disposal needs! Dispose of concrete, brick, sand, wood and other debris.

LANDSCAPING

You have some great ideas for a new look for your yard, but first you have to get rid of the old materials. The 12-yard dumpster will hold the sod you removed for garden plots, the broken fence you replaced, the old shed rotting in the backyard and more.

OTHER PROJECTS

Do you need to downsize after the kids have left? Have a lot of accumulated junk? Have heavy or hard-to-load items you no longer need? You could make several trips to the dump OR fit all of your old items and junk in a 12-yard dumpster.
