Objectives and Applicability of this Handbook

The purpose of this handbook is to provide you with information and bring about a high level of understanding, cooperation, unity, and efficiency, with the systematic application of sound personnel administration policies administered uniformly for all employees.

The policies as stated herein provide guidelines for all personnel of the City of Cullman, however, they do not include all policies, procedures and rules or regulations that may be necessary at the operational level. Therefore, when necessary to enhance efficiency and effectiveness at the operational level, departmental policies and procedures may be supplemented. However, no such departmental policy, procedure, rule or regulation shall be in conflict with these basic policies.

If any part of this policy is determined to be void or unenforceable under state or federal law, the remainder of the policy, to the extent possible, will remain in full force and effect. No part of the policy or any procedures herein are intended to affect the City's right to manage its workplace or to discipline its employees, nor is it a guarantee of employment, continued employment, or of any terms or conditions of employment.

The Cullman City Council reserves the right to interpret, change, modify, amend or rescind this policy as a whole or in part. Exceptions to personnel policies may be granted in unusual or extenuating circumstances, but only with the approval of the Mayor.

The information contained in this handbook does not in any way constitute an employment contract, either expressed or implied between the City and the employee. This handbook is not intended to create or imply any contract rights nor is it an invitation to contract.

The Mayor shall have final administrative authority to resolve questions or disputes regarding the application of the policies in this handbook to ensure its implementation is consistent and aligned with applicable law and ordinances.

Effective Dates and Amendments to Handbook

This handbook becomes effective when adopted by the City Council and supersedes all such prior handbooks and/or policies upon its adoption. It will have the force and effect of law. Therefore, the City Council reserves the right to modify, alter, revoke, suspend, terminate, discontinue, or change any language in this handbook in whole or in part as necessary. Any amendments to this handbook shall be effective upon adoption by the City Council or as otherwise specified therein. Vacancies in positions above the entry level may be filled so far as practical by the promotion of qualified full-time employees of the City of Cullman. When promoted to a higher position, employees are required to serve a one-year probationary period. At any time during the probationary period, the Mayor may notify the employee in writing that they have failed to satisfactorily complete the probationary period (which is not eligible for appeal) and may elect to reassign the employee their former position, or another open position within the City. Pay increases due to promotion are as follows:

- If the employee's present rate of pay is within the range for the lower position, the employee's salary may remain the same or may be changed on the recommendation of the Department Head with the approval of the Mayor.
- If the demotion is the result of the employee's failure to successfully complete a probationary period associated with the promotion, the employee's rate of pay shall be returned to the rate of pay before promotion as adjusted by any cost of living or across the board increases that may apply.

Resignation:

Any employee wishing to leave employment in good standing shall file with his supervisor a written resignation at least two weeks before leaving. Such notice shall promptly be reported to the Human Resources office. Failure to comply with this procedure may be cause for denying future employment. An unauthorized or unreported absence for three days or more may be considered a resignation, unless designated an unforeseen and emergency exception by the Mayor.

The Classification Plan

Classified Service: The classified service comprises all offices and positions within the City of Cullman, now existing, or hereafter created that are paid for by City funds, except for those offices and positions that are listed as exempt.

Exempt Service: The exempt service is not part of the classified service and consists of the following offices and positions:

- All elected or appointed City of Cullman officials
- Positions of voluntary personnel and personnel appointed to serve without pay
- Consultants rendering temporary professional services
- Positions involving seasonal, part-time or temporary employment
- Such positions involving unskilled or semi-skilled work as may be determined by the City Council
- All heads of departments and superintendents, as appointed by the City Council or Mayor, who report to the City Council and/or Mayor
- Non staff (outside) attorneys offering legal service

The classification plan provides for the grouping into a single class, positions which involve substantially the same kind of work, work of equal difficulty or responsibility, and/or comparable qualification for work performance. The classification plan consists of:

- A schedule of class titles appropriately descriptive of the nature of the work of several classes
- Written specifications describing the nature and requirements of work in each class
- Materials regarding the interpretation and application of the class specifications.

Class titles shall be used in all personnel records. No person may be appointed to or employed in a position in the classified service under a title not included in the classification plan. In determining the class to which any position should be allocated, the specifications of each class shall be considered. Consideration shall be given to the duties, specific tasks, responsibilities, qualification requirements, and relationships with other classes. The Human Resources department is responsible for continuous administration of the classification plan and shall recommend amendments to the classification plan to the City Council as necessary.

When the duties and/or responsibilities of a position change significantly, the department head may make a written request for a study of said position. Such a request shall contain the reasons for the review and carry the approval of the Mayor. If after a study is completed, it is found that the position is not in the most appropriate class, and with the approval of the Mayor, Human Resources shall request the City Council approve a resolution to reallocate the position to the proper class if the budgeted funds are available.

The Pay Plan:

The City Clerk, in cooperation with the Human Resources Director, is responsible for recommending a pay plan for all classified positions, which is subject to the approval of the City Council. The Pay Plan shall consist of:

- A schedule of an incremental range of rates of pay which reflects the minimum and maximum rates for each range
- A schedule showing the pay range to which each class is assigned and the job titles contained in each class.
- Policies showing the interpretation and application of the scheduled ranges of pay

The Clerk, in cooperation with the Human Resources Director, shall prepare and recommend a revised pay plan for each class of employment in the classified service based on economic factors. The City Council may or may not adopt the revised plan. The City Council may incorporate any modifications or amendments to the revised pay plan. When the Council adopts a revised pay plan, it shall be implemented and shall supersede any previous plan.

As part of the budget process each year, the City Council will determine increases or decreases in salaries and the pay plan based on the financial condition of the City. Annual pay adjustments may take the form of a flat amount and/or percentage increase.

Appointment Rate:General Employees:

Upon initial appointment to a regular, full-time position, the entrance rate of new hires shall normally be the minimum rate of the salary grade for the position classification involved. However, when an applicant for a position possesses qualifications distinctly above the minimum qualifications required for the position, the Mayor may authorize an initial entrance rate above the minimum rate up to step 3 for said position, if the budgeted funds are available and have been approved by the City Council.

Work Cycles and Overtime Pay

Employees are paid biweekly on every other Friday for all work performed through the end of the previous period. If a regularly scheduled pay day falls on a holiday, employees will be paid on the last working day before the holiday. Staffing needs and operational demands may necessitate variations in starting and ending times, as well as variations in the total hours that may be scheduled each day and week. Supervisors will advise employees of the times their shift will normally begin and end.

Any employee who works more than the number of hours for which they may legally be paid straight time will be compensated for overtime hours at one and one-half his normal hourly rate of pay or the compensation due pursuant to federal and state law. All overtime will be paid to the employee according to the pay cycle or period of their job. Employees who work overtime that has not been approved by their Department Head may be subject to discipline. Department heads and other persons determined to be exempt from overtime pay under the provisions of the Fair Labor Standards Act shall be exempt from this section. Paid time off for a holiday, vacation leave, sick leave, personal leave, administrative leave, and military time taken will not count as hours worked for the purpose of calculating overtime.

Employees may not take paid leave time which causes their pay period total time calculation to exceed their standard pay cycle hours.

General Employees:

The standard work week is a forty (40) hour week beginning at 12:01 a.m. Wednesday and ending at 12:00 midnight on the following Tuesday.

All general employees, except those deemed exempt under the provisions of the Fair Labor Standards Act, shall receive time and one half pay for all hours of unscheduled work performed in excess of their regular work schedule each week of the bi-weekly pay period, provided the employee actually works all regularly scheduled hours in the week in which the unscheduled work is performed; otherwise, hours for premium pay (time and one half) will be reduced by the number of hours not worked in the week and payment shall then be made on a straight time basis for these hours. In calculating overtime, hours off on paid leave or holidays will not be counted as time worked. In the event federal or state law requires otherwise, federal and/or state law will be followed.

Police:

A 14-day work period has been established for law enforcement officers in accordance with the Fair Labor Standards Act (FLSA). The number of scheduled work hours established for this work period is 86.

All law enforcement officers shall be paid an overtime rate for all unscheduled hours of work performed in excess of 86 hours in the 14-day work period, provided the employee actually works all regularly scheduled hours in the pay period in which the unscheduled work is performed; otherwise, hours for premium pay (time and one half) will be reduced by the number of hours not worked in the pay period, and payment shall be made on a straight time basis for these hours. In calculating overtime, hours off on paid leave or holidays will not be counted as time worked. In the event federal or state law requires otherwise, federal and/or state law will be followed.

Fire:

A 24-day cycle has been established for firefighting employees working 48-hour shifts in accordance with the Fair Labor Standards Act (FLSA). The number of scheduled work hours established for this work period is 168.

Work cycle defined: Cullman Fire Rescue works a 24-day cycle under the 7K exemption defined for fire departments within the FLSA. Under this cycle, shift personnel are due overtime for all hours worked over 168. The policy is to pay overtime when it is earned as opposed to waiting until the end of the cycle. Annual scheduled hours for firefighting employees total 2,556 divided by 26 pay periods establishing 98.31 hours in a 12-day work period. All firefighters shall be paid an overtime rate for all unscheduled hours of work performed in excess of 98.31 hours in a 12-day work period, provided the employee actually works all regularly scheduled hours in the work period in which the unscheduled work is performed; otherwise, hours for premium pay (time and one half) will be reduced by the number of hours not worked in the pay period, and payment shall be made on a straight time basis for these hours. In calculating overtime, hours off on paid leave or holidays will not be counted as time worked. In the event federal or state law requires otherwise, federal and/or state law will be followed.

Working out of Classification:

If a full-time employee, through the direction of the Department Head, is temporarily assigned the responsibility of performing all duties normally performed by another employee in a significantly higher classification, that employee shall, after a reasonable period of training and development, equivalent to two consecutive pay periods within such classification, be entitled to receive additional compensation equivalent to the entry pay of the higher classification but not less five percent (5%). In the event that the temporary vacancy or absence becomes permanent, the Department head shall consider all qualified and eligible applicants or candidates regardless of any previous assignment.

Provisions for Temporary Appointment and Compensation:

- A temporary vacancy must exist within the department
- As determined by the Department Head, a temporary out-of-class appointment is necessary for the efficient operation of the department.
- The Department Head, subject to approval from the Mayor, shall have the discretion to designate which full-time employee, if any, shall be assigned and for what duration the employee may serve
- An employee must first have served a reasonable amount of time equal to all scheduled working days within two consecutive pay periods in the new classification, in order to be eligible for compensation under this policy

Method of Compensation:

A full-time employee who is temporarily assigned to a higher classification, and who, either continuously or intermittently, serves within that new classification for a period of time in excess of the equivalent of two consecutive pay periods, shall thereafter receive compensation equal to the established minimum salary rate of the new higher grade, or the salary rate (step) which provides at least a 5% increase for each higher grade above the employee's current rate of pay in the lower grade, whichever is greater.

Call Out Provisions:

A "call out" is considered to have occurred whenever the employee must leave their residence in response to a work call outside of normal scheduled working hours. Accepting or initiating a phone call does not qualify as a "call out" under this policy. Non-exempt employees who are called to return to duty outside of normal working hours to perform emergency or necessary services on behalf of the City, as directed by their supervisor, will be paid a minimum of two (2) hours' work at the employee's current regular rate of pay. The determination of whether the

hours are paid at a straight time rate or overtime rate will be determined by the number of hours worked during the period, and balanced against any paid leave, holiday pay, etc.

- If the actual work exceeds two hours, the employee will be compensated for actual time worked.
- If the actual time worked is less than two hours, the employee will be compensated for two hours.

Employees on call will only be compensated when time is actually worked in compliance with the Federal Labor Standards Act. Employees on call shall maintain a reasonable distance per job requirements in order to produce reasonable response times when job related situations arise. Employees who are on call are expected to maintain a fitness for duty while on call. Employees who are “on call” are expected to respond when required, or they may be considered AWOL.

On Call Phone Calls:

Employees whose “on call” duties require them to receive phone calls outside of normal scheduled working hours shall be compensated for time worked, with a minimum compensation of 15 minutes paid for each occurrence. Employees are expected to keep accurate records of time worked while on call and submit this information to their supervisor for entry into the payroll system. In the event of an audit, employees should be prepared to submit call logs or other records for review upon request.

Off Duty Work by Police Officers:

Police Officers of the City of Cullman may accept off-duty employment subject to the Police Department’s written directives, along with the following restrictions and guidelines: Any officer seeking to accept outside employment must file with the office of the Chief of Police a request for approval of outside employment. Attendance and Leave Policies

To ensure proper administration of these rules, each Department Head is responsible for designating the supervisory personnel to whom employees in their department are to report absences or lateness, and the sequence in which these people shall be contacted by the employee.

Time Reporting:

Timecard Approval Procedures. At the end of each pay period, both the employee and their supervisor are required to review for accuracy and enter an approval for time worked and leave hours recorded in the City's electronic time keeping system. By approving the timecard in the system, the supervisor and the employee, respectively, are attesting that to the best of his/her knowledge that the information submitted on the timecard is complete and accurate. By the deadline, a time and date set forth by the payroll division of the Human Resources Department, all employee timecards are expected to be approved and ready for processing each bi-weekly payroll period.

Attendance:

Employees shall be at their designated places of work at the beginning of the scheduled work time and location as determined by their supervisor. If an employee fails to report, is tardy, leaves the workplace without proper authorization, or misuses leave privileges, such employee is subject to disciplinary action.

Employees shall be responsible for ensuring that notification of any unscheduled absence is reported to their immediate supervisor or other designated individual in accordance with the department policy; or in the absence of departmental policy, no later than 30 minutes after the beginning of the scheduled workday on which the absence occurs. Unauthorized absences without proper notification may result in disciplinary action, including termination.

Requesting paid leave in the electronic timekeeping system does not qualify as proper notification of an absence to a supervisor. Employees submitting a time off request without direct communication with their supervisor may be considered AWOL (Absent Without Leave) and may be subject to progressive discipline.

Public Safety departments may require standard operating guide (SOG) procedures regarding attendance that may vary slightly from the policy outlined below due to minimum staffing requirements, and the nature of their work as emergency responders. Employees in those departments should familiarize themselves with their SOG in its entirety. If no provision is made in the SOG for a specific issue, the guidelines in this handbook will govern as they do in other departments.

Authorized Leave:

Authorized leave is any absence during regularly scheduled work hours that is approved by the proper authority. Authorized leave will be granted in accordance with these rules and on the basis of work and departmental requirements.

The department head, or other proper authority, may cancel any scheduled leave at any time in the event of emergency situations and/or the necessity for certain manpower requirements. Should such cancellation of leave occur, the employee shall report to work as directed. Failure to report shall be grounds for disciplinary action.

Employees are responsible for requesting paid leave for supervisor approval electronically through the electronic time keeping system.

If leave is not requested by the employee and approved by an appropriate supervisor, the request will not be considered for payroll.

Vacation Leave:

Eligible employees will be credited with vacation leave as it is earned. Probationary employees do not earn vacation leave for the first year of employment; however, after successfully completing the probationary period, the employee will be credited with the vacation which they would normally have earned. No vacation benefits are provided for temporary, seasonal, or part-time employees. Leave time shall not accrue while in a non-pay status. Pay periods in which an employee does not work a full schedule and does not have enough accrued leave to cover the full schedule or is not approved for paid leave to cover the full schedule shall result in accruals earned for the period being prorated based on hours paid for the period.

Permanent full-time employees shall accrue vacation leave at the following rates:

- Less than five years of continuous service: 6 2/3 hours per month
 - 48-hour employees: 10 hours per month
- 5-10 years of continuous service: 8 2/3 hours per month
 - 48-hour employees: 13 hours per month
- 10-15 years of continuous service: 12 hours per month
 - 48-hour employees: 18 hours per month
- 15+ years of continuous service: 13 1/3 hours per month
 - 48-hour employees: 20 hours per month

Vacation leave will be scheduled at the mutual convenience of the employee and the Department Head or supervisor. The proper authority may cancel any scheduled leave at any time in the event of emergency situations and /or the necessity for manpower requirements. Should cancellation of leave occur, the employee shall report to work as directed. Failure to report shall be grounds for disciplinary action. If vacation leave must be denied or previously approved leave cancelled, an alternative period of time should be scheduled, if possible.

The employee is responsible for submitting requests for vacation leave in the current electronic time keeping system. Supervisors should review and respond to requests in the electronic system as promptly as possible.

In charging vacation leave, each hour absent shall be counted as one hour of vacation leave. Regular days off and holidays occurring during vacation leave will not be charged as vacation.

Vacation hours may not be used in excess of an employee's normal work schedule. An employee who is on scheduled vacation leave and becomes sick as supported by proper medical documentation may request to have that portion of their vacation leave converted to sick leave with the approval of their supervisor. Vacation leave may be used as sick leave if sick leave benefits are exhausted, subject to the approval of the Department Head; however medical documentation certifying the need for leave may be required.

Upon separation of employment, employees who have successfully completed their one-year probationary period shall be paid any unused portion of earned vacation leave. Unused vacation leave may be carried over from one calendar year to the next up to a maximum of 240 hours (360 for 48-hour employees). Any vacation leave in excess of 240 hours (360 for 48-hour employees) must be taken prior to December 31 or it will be forfeited. In the event of the employee's death, payment of all accrued vacation leave credited to the employee's leave balance at the time of death shall be made to the beneficiary on file or to the estate of the employee.

Sick Leave:

Sick leave with pay is not a right for which employees may make a demand, but it is a privilege granted in accordance with the prescribed rules and regulations, to which the Mayor may make exceptions as the best interest of the City demands. Sick leave benefits are to provide some measure of financial assistance to employees in the event of illness of the employee or the employee's immediate family.

Each employee shall earn sick leave at the rate of four (4) hours for each full bi-weekly pay period, except for employees working 48-hour shifts who earn sick leave at a rate of six (6) hours bi-weekly. Sick leave shall be credited as earned. Leave time does not accrue while in non-pay status. Pay periods in which an employee does not work a full schedule and does not have enough accrued leave or is not approved for paid leave to cover the full schedule shall result in accruals earned for the period being prorated based on hours paid for the period.

Sick leave may be granted for absences due to personal illness, including pregnancy, or childbirth, or illness or death in the immediate family. Absences for appointments with physicians, dentists, optometrists, therapists and other medical personnel for examination or treatment shall be charged to sick leave. Sick leave is not available for any other purpose; however, the Mayor may approve alternative uses of sick leave under extenuating circumstances.

Immediate family with respect to illness is defined to include:

- Husband or Wife
- Children of each
- Parents of each

Immediate family with respect to death is defined to include:

- Husband or Wife
- Children of each
- Parents of each
- Grandparents of each
- Brothers and sisters of each
- Grandchildren of each
- Sons or Daughters-in-Law
- Brothers or Sisters-in-Law of each

Where close personal ties exist, the Mayor may approve exceptions with respect to illness and/or death.

If sick leave is exhausted, available vacation leave may be used with the approval of the employee's supervisor. Absences of three (3) consecutive shifts or more will require a doctor's excuse to be paid sick leave. A total of five (5) absences within a 30-day period, (three (3) for 48-hour employees) consecutive or non-consecutive, will require a doctor's excuse for paid sick leave. Doctor excuses issued by a telehealth provider for non FMLA protected leave may require Human Resources approval.

Unexpected Sick Leave:

A request for unexpected sick leave should be made prior to the time that the employee is scheduled to start work. Submitting a sick leave request electronically without direct communication with a supervisor may not be approved.

Proper Use of Sick Leave:

The Department Head or designated representative, and if necessary, the Human Resources Director shall determine if the employee is making proper use of sick leave benefits. Appropriate medical certification or documentation in accordance with privacy rules and regulations may be required by the department of the employee to determine proper use of sick leave benefits. Also, appropriate work excuses in accordance with privacy rules and regulations may be required by the department for an immediate family member to determine proper use of the employee's sick leave benefit. A misuse of sick leave shall be considered insubordination and will be dealt with according to the extent of the offense. An employee may be subject to disciplinary action if he/she engages in outside employment at any time within a calendar day during which sick leave is claimed. Employees are expected to manage their sick leave responsibly and ensure they have sufficient sick leave available when needed. Calling in sick without available sick leave is not permitted, except in special circumstances such as approved FMLA leave or ADA accommodation or other circumstances approved by the Mayor.

Vacation leave may be used as sick leave when the following conditions are met:

- The sick leave of the employee is exhausted
- The employee has vacation time available to use
- The employee's supervisor approves of said use

An employee who has exhausted both sick and vacation leave may be granted leave without pay by the Mayor. The request for this leave should be made in writing to their supervisor, who will forward the request to Human Resources for review by the Mayor.

Employees may also request that donations of leave time be allowed to cover emergency sick leave when they do not have a sufficient sick or vacation leave balance, subject to the approval of both the department head and the Mayor. See: **Leave Transfer Donations**. Employees who have exhausted sick leave and are not approved for the opportunities above, who do not report to work, will be treated as Absent Without Leave (AWOL) and will be subject to discipline.

Sick leave may not be carried over to the next calendar year in excess of 960 hours, except those employees working 48-hour shifts may carry over up to 1440 hours. Effective in 1993, and every calendar year thereafter, any employee who has accumulated the maximum hours of sick leave which may be carried over to the next year, will be paid one half of the excess sick leave earned during the year and not taken, which the employee would otherwise lose. Such pay is to be calculated at the employee's regular hourly rate. Sick leave may not be used during or to complete a notice of resignation, unless a valid doctor's excuse certifying the need for medical leave is provided and approved.

Change in Schedule:

If a firefighting employee working 48-hour shifts transfers or is promoted to another position within the fire department or in another City department where they will no longer work 48-hour shifts, the employee's accumulated sick leave shall be converted to an equivalent number of hours to provide equivalent benefits under the employee's new shift schedule.

Separation:

Upon separation from the service of the City, no employee shall receive pay for accumulated sick leave except:

- Those employees who retire through the Retirement Systems of Alabama
- Those that terminate employment due to death, who at the time of death were vested with at least ten years of service in the Retirement Systems of Alabama
- Those employees who voluntarily separate from the City in good standing and are vested with at least ten years of service in the Retirement Systems of Alabama.

Employees who qualify shall be compensated for one half of their accumulated sick leave. Pay will be based on the employee's regular hourly pay at separation.

Personal Leave:

Employees may use up to twenty-four (24) hours of sick leave earned any one year as Personal Leave; however, employees working 48-hour shifts may use up to thirty-six (36) hours of sick leave during any year as Personal Leave. Personal leave is given for the purpose of conducting personal business and personal leave days may not be taken in secession without the approval of the Mayor. Personal leave may not be used during or to complete a notice of resignation.

Emergency Closings:

At times, emergencies such as severe weather, fire, power failure, or other disasters may disrupt City operations. In extreme cases, these emergencies may require the closing of City facilities. If such an emergency occurs during non-working hours, closing will be announced on the City's mass communications notification system. When operations are officially closed due to emergency conditions, the time off from scheduled work will be unpaid. However, with supervisory approval, employees may use available paid leave time, such as vacation or personal leave. Employees in essential operations who work on a day when facilities are officially closed will receive regular pay for the time worked.

Leave With Pay:

Leave with pay may be authorized by the Mayor as a required witness for job related matters or jury duty provided that such leave is reported to the Human Resources Director.

Administrative Leave:

Administrative leave is leave with pay granted to employees and not requiring the employee to use accrued paid leave. The Mayor may grant Administrative Leave with pay at his/her discretion, for reasons including, but not limited to:

- Short term circumstances involving an unforeseeable catastrophic event that is beyond the control of the employee, such as hazardous weather events or emergency conditions which necessitate the closing of the workplace or other safety concerns.
- As part of the Fit for Duty process.
- As a non-disciplinary measure when disciplinary action is being considered by the Department Head.
- During an investigation into misconduct.

Leave of Absence:

An employee may be granted leave of absence without pay for a period, not to exceed one year, unless a request for an extension is approved by the Mayor for sickness, disability, education, seeking nomination or election to public office, or for other good and sufficient reason not detrimental to the best interest of the City.

Where the employee qualifies for leave pursuant to the Family Medical Leave Act, the leave of absence, up to the first twelve weeks, shall be considered to be family and medical leave and shall run concurrent with any leave of absence granted under this section.

Employees who apply for and receive approval for a leave of absence shall not be entitled to any accrued benefits during the period of absence. Employees will be required to pay all premiums for group insurance during the period of absence to maintain eligibility for such benefits. Failure to return to work from a leave of absence at the prescribed time may be considered a resignation.

Leave Transfer Donations:

The purpose of the Leave Transfer Program is to allow a regular, full-time employee of the City to transfer portions of their unused accrued vacation or sick leave to another regular, full-time employee of the City, who is absent from work without available paid leave due to a medical emergency for a period of time. Any regular, full-time employee entitled to use and accrue leave benefits, encountering a medical emergency, may make a request for such a donation by submitting a written request to his/her Department Head. Application for a potential leave recipient shall be reviewed by the Department Head, and a recommendation for approval/disapproval will be forwarded to the Director of Human Resources. The Director of Human Resources will review the recommendation of the

Department Head with the Mayor, who shall have final authority to approve the application. In evaluating an application for leave donations, the authorizing officials may take into account for purposes of approving or disapproving the application, the manner in which the employee has utilized previous leave benefits, whether or not the emergency was foreseeable, whether there are reasonable alternatives to being absent available, or any other circumstances unique to the medical emergency.

Upon final approval, the Human Resources department will distribute a leave donation form to each City department. Employees may voluntarily sign up to donate sick or vacation time in the amount of their choosing, not to exceed their current accrued balance at the time of donation. The decision to donate leave must be completely voluntary. An employee may not directly or indirectly intimidate or coerce any other employee for the purpose of interfering with any right such employee may have with respect to donating, receiving, or using leave.

Use of Transferred Leave:

The leave recipient must first exhaust any paid leave they have accrued before accessing donated leave time. Probationary employees approved for leave donations may receive vacation donations with the approval of the Department Head and Mayor. These donations will be converted to sick leave when crediting them to the probationary recipient to make them available for use. Leave donation privileges shall stop when the medical emergency terminates or when the recipient returns to work on a full-time basis. Any donated leave unused by the leave recipient when the medical emergency terminates will be restored to the donor.

Military Leave:

Military leave shall be granted in accordance with the laws of the State of Alabama governing military leave.

Workers' Compensation:

Employees are covered by Workers' Compensation Insurance which compensates employees absent from duty because of bodily injury or occupational illness incurred in the line of duty. Employees will receive their usual compensation from the City for regularly scheduled hours of work for the day on which an injury or illness occurs and up to the next three scheduled workdays. Employees do not accrue vacation or sick leave while receiving workers' compensation benefits. The City will continue to pay its share of medical and life insurance premiums. Filing or participating in a false or misleading workers' compensation claim will be cause for disciplinary action, up to and including termination. As provided by section 25-5-51, Code of Alabama 1975, as amended, a worker injured in the workplace or in the course of employment will not be paid benefits under the Alabama Workers' Compensation Law if the injury is a result of an accident caused by the employee's impairment by drugs and/or alcohol. Further, a positive drug test conducted and evaluated pursuant to Section 25-5-51 shall be a conclusive presumption of impairment resulting from use of illegal drugs.

Light Duty:

Requests for light duty will be evaluated on a case-by-case basis, and approval will be contingent upon departmental needs. Approval from the Mayor will be required for light duty assignments. Light duty for work-related illness and injury will be provided based upon departmental needs and the department's ability to accommodate any medical restrictions associated with the request.

Holiday Leave:

Classified full-time employees are entitled to the following paid holidays:

- New Year's Day
- Martin Luther King Day
- Memorial Day
- Independence Day
- Labor Day
- Veteran's Day
- Thanksgiving (Thursday and Friday)
- Christmas Eve
- Christmas Day

Classified full-time employees having a Monday through Friday work schedule:

- Holidays falling on Sunday may be observed on the following Monday.
- Holidays falling on Saturday may be observed on the preceding Friday.

The Mayor may alter the observation dates of holidays as deemed appropriate for serving the public.

If an employee is scheduled to work on a City observed holiday, that employee will be paid holiday time in addition to hours worked. If an employee is scheduled to work on a City observed holiday but does not work his shift, that employee will receive holiday pay but may not use any paid leave in addition to holiday pay. Employees who do not report when scheduled to work on a City observed holiday due to unexpected illness may be required to present a doctor's excuse to be eligible to receive holiday pay.

To be eligible for holiday pay, an employee must be in active employment status and not be on leave without pay, disciplinary suspension, or unpaid leave of absence on the previous scheduled workday or the next scheduled workday. An employee on scheduled or authorized and compensable leave (including paid leave pursuant to the Family Medical Leave Act) when the holiday is recognized shall be compensated for the holiday in lieu of use of accrued leave. No employee will be eligible for holiday pay if he/she has an unapproved absence on the last scheduled workday before the holiday or the next scheduled workday after the holiday. A doctor's excuse may be required to excuse unexpected illness in these circumstances.

Family Medical Leave Act (FMLA)

This policy is meant to provide employees with a basic framework concerning when FMLA leave can be taken, how much leave may be taken, and how the leave may be requested. This policy is not intended to be all-inclusive. Each case is unique. Employees should contact Human Resources with specific questions about FMLA. Qualified employees of the City of Cullman are entitled to take up to twelve (12) weeks of unpaid, job protected leave, in a 12-month rolling period, as provided by the Family Medical Leave Act (FMLA) for:

- The employee's own qualifying serious health condition
- To care for his/her spouse, child, or parent with a qualifying serious health condition
- Birth of the employee's child or placement of a child with the employee for adoption or foster care
- To bond with a child (leave must be taken within one year of the child's birth or placement)
- For qualifying exigencies related to the foreign deployment of a military member who is the employee's spouse, child, or parent

An eligible employee who is a covered service member's spouse, child, parent or next of kin may also take up to 26 weeks of FMLA leave in a single 12-month period to care for the service member with a serious injury or illness.

Eligibility:

Employees are eligible for FMLA leave once they have worked for the City for at least one year and have performed at least 1250 hours of work during the previous twelve months, subject to other legal requirements.

Leave Usage:

Except for employees taking leave to care for a newly born or newly placed child, employees are not required to use their leave entitlement in one block. Leave may be taken intermittently, or on a reduced leave schedule when medically necessary. Employees must make reasonable efforts to schedule leave for medical treatment so as not to unduly disrupt the employer's operation. Leave due to qualifying exigencies may also be taken intermittently.

Employee Responsibilities When Requesting FMLA Leave:

Notice:

Employees must provide a 30 day advance written notice of the need to take FMLA when the need is foreseeable. (FMLA request forms are available in Human Resources.) When a 30-day advance notice is not possible, employees must provide written notice two (2) workdays before leave is to begin, or as soon as practicable, considering the individual facts and circumstances. Employees requesting leave should comply with the City's absentee reporting requirements. Excessive delay could lead to a delay in designation of absences as FMLA protected leave.

Medical Certification Requirement:

Employees may be required to provide a medical certification and periodic recertification supporting a need for leave. Medical certifications must be issued by the health care provider of the eligible employee or the health care provider of the son, daughter, spouse, or parent of the employee, as appropriate, and be returned to Human Resources within 15 days of receipt. Employees must provide sufficient information for the City to determine if the leave requested qualifies for FMLA protection. Sufficient information may include that the employee is unable to perform job functions, the employee's family member is unable to perform daily activities, the need for hospitalization or continuing treatment by a health care provider, or circumstances supporting the need for military family leave. The employee is not required to provide a medical diagnosis as long as sufficient information is given. Employees must also inform the City if the requested leave is for a reason for which FMLA leave was previously

taken or certified. If the City determines that a written certification is incomplete, it will provide a written notice indicating what information is required. Qualified employees and the City will and must comply with FMLA requirements. At the conclusion of the employee's leave pursuant to the Family Medical Leave Act where the leave was for the purpose of the employee's own serious health condition, the employee shall provide to the Human Resources department, upon return to duty, a medical certification that the employee is fit to resume the functions of his/her job. The employee may be subject to a Fitness for Duty before he/she is able to return to duty.

Employer Responsibilities in Responding to Requests for Leave:

The City will inform an employee requesting leave if they are eligible under FMLA. If the employee is eligible, the City will also specify any additional required information, as well as provide a description of the employee's rights and responsibilities. If the employee is not eligible, the City will provide a reason for ineligibility. The City will inform the employee if leave will be designated as FMLA protected and the amount of leave counted against the employee's leave entitlement.

Substitution of Paid Leave or Unpaid Leave:

Employees shall be required to use any accrued paid leave while taking FMLA leave. Employees must comply with the City's normal paid leave policies.

Benefits:

Subject to limitations under the law, while employees are on FMLA leave, the City will continue health insurance coverage as if the employee were not on leave. Employees on unpaid leave must make arrangements with the City to pay their share of the premium. On return from FMLA leave, most employees will be restored to his or her original or equivalent position with equivalent pay, benefits, and other employment terms as if he or she had remained in the workplace.

The FMLA does not affect federal or state law prohibiting discrimination, nor does it supersede greater family or medical leave rights that are granted by State or local law or collective bargaining agreement. An employer may not interfere with an individual's FMLA rights or retaliate against someone for using or trying to use FMLA leave, opposing any practice made unlawful by the FMLA, or being involved in any proceeding under or related to FMLA. An employee may file a complaint with the U.S. Department of Labor, Wage and Hour Division 866-487-9243; www.dol.gov/whd or may bring a private lawsuit against an employer if his/her FMLA rights are abridged.

Harassment Policy

It is the policy of the City of Cullman that all employees have the right to work in an environment free from discrimination and conduct that can be considered harassing, coercive, or disruptive, including sexual harassment. The City of Cullman does not authorize and will not tolerate any form of harassment of or by any employee (supervisory or non-supervisory) in any form. Comments or actions of this type, even if intended in a joking manner, are always inappropriate in the workplace and will not be tolerated. - General harassment, pushing, shoving, threatening, or any other intentional act that is perpetrated because of the employee's gender, race, color, religion, national origin, age, disability or any other legally protected characteristic

Employees who violate this policy are subject to discipline, including termination of employment. No supervisor or manager should participate in any such behavior and must take immediate action to stop those who are known to be or suspected to be involved in such conduct. Supervisors must report such behavior to Human Resources immediately.

Sexual harassment may take the form of an unwelcome act of a sexual nature by individuals of the same sex or opposite sex.

Sexual harassment does not refer to behavior or occasional compliments of a socially acceptable nature. It refers to behavior that is unwelcome, offensive, inappropriate, and affects an individual's employment or work conditions.

No supervisor or any other employee may threaten or insinuate, either explicitly or implicitly, that an employee's submission to or rejection of sexual advances will in any way influence any personnel decision regarding that employee's evaluation, wages, advancement, assigned duties, work hours or any other condition of employment or work conditions.

Reporting Instances of Harassment:

The City of Cullman takes very seriously its prohibition against harassment. An employee who has a complaint or concern relating to any form of harassment, including concerns about such conduct from non-employees, should report the conduct directly to Human Resources. Employees who witness such conduct should immediately report the incident directly to Human Resources on the standard written form available through Human Resources. An employee should report the behavior or concern even if the behavior complained of is not directed toward the employee who reports it. If an employee reports the matter to a supervisor or management representative, this person should immediately forward the complaint to Human Resources.

Investigation of Complaints:

Complaints of discrimination or harassment will be promptly investigated by the City under the direction of the Human Resources Director. The investigation will be conducted impartially and as confidentially as possible. If it is determined that a complaint is valid, the City will take appropriate disciplinary action against the offender based upon the severity of the harassment and the individual's employment history.

Retaliation:

Retaliation against individuals who report harassment is strictly forbidden. It is a violation of this policy for anyone to retaliate, threaten, intimidate, or seek any reprisal against any individual acting in good faith who reports harassment or who participates or cooperates in an investigation regarding harassment or other misconduct.

Any Department Head, supervisor or other employee who is found to have taken any adverse action against an individual because of the individual's good-faith report or complaint of harassment is subject to severe discipline, including termination of employment. This may apply even if it is determined that the harassment report or complaint is not substantiated. If an employee believes that reprisal, intimidation or retaliation has occurred, he/she should immediately make a report to Human Resources. Anyone who feels that the City is not meeting its obligations under this policy should contact Human Resources.

Grievance Policy

General Provisions:

All employees have the right to discuss all matters relating to their employment with their supervisor. When an agreement regarding the solution to a problem cannot be reached, all employees shall have access to successively higher levels of management. Supervisory personnel will make reasonable efforts to achieve rapid and satisfactory resolutions to problems and shall ensure every employee's right to due process.

Employees are expected to:

- Comply with this policy

- Cooperate with any investigation by providing complete and truthful responses to questions

Grievance Policy Defined:

A grievance policy is a formal process for permanent employees to raise complaints about their work environment, issues with management, workplace conflict, or policy violations.

Purpose:

The grievance procedure permits every employee equal access to those individuals who make management decisions. In addition, the grievance procedure provides a standardized process for proper investigation and resolution of employee complaints.

Any retaliation against or interference with the employment of an employee who has availed oneself of the grievance procedure, cooperated in an investigation, or has testified in a hearing, shall be grounds for disciplinary action, including termination of employment, when appropriate.

Any employee who suffers any retaliation as a result of availing oneself of the grievance procedure, cooperating in an investigation, or testifying in a procedure may file a separate grievance based thereon.

If the subject of the grievance involves the person responsible for receiving the grievance or reviewing a requested appeal at any step of the process, the employee is authorized to advance to the next higher step.

Withdrawal of Grievance:

A grievance may be withdrawn by the employee at any step of the process by submitting a written request for withdrawal to the Human Resources Director. Resignation of employment by an employee shall constitute an automatic withdrawal of any pending grievance.

Acceptable Reasons for Grievance include, but are not limited to:

- To contest any action that does not pertain directly, personally, and solely to the employee's own employment

The Grievance Process shall not be used for Harassment:

No employee shall use the grievance process with the intent or purpose of harassment or impeding departmental or City of Cullman operations. A Department Head may offer evidence of harassment at any stage in the grievance process. If it is determined that the employee's use of the grievance procedure is based, in whole or in part, upon an intent purpose of harassment or impeding departmental or City operations, the grievance or any portion thereof will be dismissed with no right of appeal and the filing party may be subject to disciplinary action, if appropriate.

Grievance Procedure:

First Step Grievance

Supervisors and employees are expected to make every effort to resolve problems as they arise, address grievances informally, and to encourage discussion and seek solutions among employees, supervisors and Department Heads. If an employee has a complaint, the employee should first discuss the complaint with his/her immediate supervisor to try to resolve the problem informally. If a resolution cannot be reached on an informal level, the employee should initiate an official grievance. Grievances crossing departmental lines shall advance directly to a Step Three grievance and be submitted to the Human Resources Director.

Second Step Grievance: (Department Head)

Within seven (7) working days after the employee knows or should have known of the alleged violation or misapplication of a City of Cullman personnel rule, regulation, policy, or procedure, the employee shall prepare a written grievance on a form provided by the Human Resources office and discuss the grievance with his/her Department Head. The grievance shall state with specificity the facts upon which the employee is relying for the grievance and shall state with specificity the remedy sought. The Department Head shall provide the employee with a written response to the grievance within seven (7) working days of the initial meeting. Both the grievance and the Department Head response, along with any supporting documentation, shall be filed immediately upon receipt with the Human Resources office.

Third Step Grievance: (Human Resources Director)

Within seven (7) working days of the Department Head's written response, or non-response to a grievance, the employee shall have the right to appeal the decision of the Department Head to the Human Resources Director. The Human Resources Director will thoroughly investigate the matter and shall provide the employee with a written response within fourteen (14) working days of this meeting.

Fourth Step Grievance: (Mayor)

Within seven (7) working days of receipt of a Third Step written response, or non-response, the employee shall have the right to elevate his/her grievance to the Mayor (if dissatisfied with the determination of the Human Resources Director). The employee shall prepare a written request for appeal and file it with the Mayor's office.

The employee's written grievance appeal request must contain the following information:

- A request to appeal the grievance to the Mayor
- A statement of the specific personnel rules, regulations, policies or procedures that have been violated or misapplied, with dates and descriptions of violations or misapplications
- The specific remedy being sought
- The Department Head's written response to the grievance
- The Human Resources Director's written response to the grievance
- Any supporting documentation

The Mayor's secretary will submit the employee's written request for appeal and all related documentation to the Mayor. The secretary will coordinate the date and time for the Mayor to hear the employee's appeal with a hearing date set for a time no later than fifteen (15) days of receiving the appeal. The secretary will notify all parties in writing of the hearing date, including the grievant, Department Head, and the Human Resources Director, and any other parties concerned.

Appeal Hearing before the Mayor:

The burden of proof shall be on the employee filing the grievance. In order to grant the employee's grievance, the Mayor must be satisfied that the employee has shown by substantial evidence that the employee has been aggrieved as alleged in the grievance as filed and that the employee is entitled to the remedy sought. Substantial evidence, the burden of proof standard for grievance procedures, is defined as relevant evidence that a reasonable mind would view as sufficient to support a determination that the employee is entitled to the remedy sought for the reason(s) stated. The format for the appeal hearing allows both parties adequate time to present their case without interruption and time for the Mayor to ask questions. The employee's presence shall be required at a mayoral hearing. Failure of the employee to attend shall be grounds for an immediate dismissal of the grievance appeal.

Order of Presentation:

- Opening statement of the employee
- Opening statement of the Department Head
- Evidence and testimony presented on behalf of the employee
- Evidence and testimony presented on behalf of the supervisor and/or Department Head

- Closing remarks of the employee
- Closing remarks of the supervisor and/or Department Head
- Questions or remarks from the Mayor

In reaching a determination following the hearing, the Mayor shall be guided by the burden of proof standard as provided above. In the written decision, the Mayor shall expressly state whether the grievance is granted or denied, (if granted or denied in part, the Mayor should state clearly which portions are granted or denied), stating the reasons upon which the decision is based. The Mayor shall provide, if appropriate, a recommendation as to suitable corrective action or appropriate cure to the situation.

In making a decision, the Mayor may determine that grounds do not exist for granting the grievance and therefore may deny the grievance. Said determination may be premised upon:

- The employee's failure to carry his/her burden of proof
- His/her failure to satisfy the procedural requirements of the grievance process
- His/her failure to rely upon acceptable reasons for filing a grievance
- The harassing nature (in whole or in part) of a grievance
- Any other appropriate reason

The Mayor will deliver a written decision within seven (7) working days of the conclusion of the grievance hearing, which shall be delivered to all parties.

Fifth Step Grievance: Civil Service Commission (Personnel Board)

The fifth and final appeals step of the grievance process shall be an appeal to the Personnel Board. Within seven (7) working days of receipt of a Fourth Step written response or non-response, the employee shall have the right to elevate his/her grievance to the Personnel Board. The employee shall prepare a written appeal request addressed to the Board and file it with the Mayor's office.

The employee's written grievance appeal request must contain the following information:

- A request to appeal the grievance to the Personnel Board
- A statement of the specific personnel rules, regulations, policies or procedures that have been violated or misapplied, with dates and descriptions of violations or misapplications
- The specific remedy being sought
- The Department Head's written response to the grievance
- The Human Resources Director's written response to the grievance
- The Mayor's written response to the grievance
- Any supporting documentation

The Mayor's secretary will submit the employee's written request for appeal and all related documentation to the Personnel Board. The secretary will coordinate the date and time for the Personnel Board to hear the employee's appeal with a hearing date set for a time not to exceed thirty (30) days of receiving the appeal. The secretary will notify all parties in writing of the hearing date, including the grievant, Department Head, the Human Resources Director, Mayor, and any other parties concerned.

Appeal Hearing before the Personnel Board:

The members of the Board shall have power to administer oaths, take depositions, certify official acts and to subpoena and compel attendance of witnesses and the production of books, documents, accounts and records pertaining to the matter under investigation. Subpoenas issued as provided herein shall be served and the service fee shall be the same as that provided by law for the service of subpoenas issued by a court. Payment of fees for

witnesses summoned at the request of the City or the Board shall be considered expenses of the Board and shall be paid from the treasury of the City. The Board shall have the right to invoke the aid of a court of law in the event a person who is duly summoned to appear and testify or produce evidence refuses to attend or testify or produce evidence in obedience to such a summons. Any employee of the City who fails to obey a subpoena may be dismissed by the Board or receive other such disciplinary action that the Board deems proper. The City Attorney may be called upon to appear in proceedings before the Board to represent the interests of the City. The employee shall have the right to be represented by counsel. The Chairman of the Personnel Board will preside over the hearing. The Board shall adopt its own rules of practice and procedures and shall not be bound by technical rules of evidence; however, the presiding officer of the Board may, in his/her discretion, exclude any evidence which he/she deems to be irrelevant to the issue before the Board. Proceedings before the Personnel Board shall be taken down by a qualified court reporter. The court reporter shall certify a transcript of the proceedings at the request of the City Attorney. The certified transcript shall be the official record of the proceedings before the Board. The court reporter shall administer oaths. In addition, the court reporter shall mark any exhibits entered at the hearing and take such exhibits into custody and include them as part of any transcript of the hearing. The burden of proof shall be on the employee filing the grievance. In order to grant the employee's grievance, the Board must be satisfied that the employee has shown by substantial evidence that the employee has been aggrieved as alleged in the grievance as filed, and that the employee is entitled to the remedy sought. Substantial evidence, the burden of proof standard for grievance procedures, is defined as relevant evidence that a reasonable mind would view as sufficient to support a determination that the employee is entitled to the remedy sought for the reason(s) stated. The format for the appeal hearing allows both parties adequate time to present their case without interruption and time for the Board to ask questions. The employee's presence shall be required at a Personnel Board hearing. Failure of the employee to attend shall be grounds for an immediate dismissal of the grievance appeal.

Order of Presentation:

- Opening statement of the employee
- Opening statement of the Department Head
- Evidence and testimony presented on behalf of the employee
- Cross examination by the Department Head or representative
- Evidence and testimony presented on behalf of the supervisor and/or Department Head
- Cross examination by the employee or representative
- Opportunity for rebuttal evidence or testimony to be presented by the employee
- Closing remarks of the employee or representative
- Closing remarks of the supervisor and/or Department Head or representative
- Questions or remarks by members of the Board

In reaching a determination following the hearing, the Board shall be guided by the burden of proof standard as provided above. In the written decision, the Board shall expressly state whether the grievance is granted or denied (if granted or denied in part, the Board should state clearly which portions are granted or denied) stating the reasons upon which the decision is based. The Board shall provide, if appropriate, a recommendation as to suitable corrective action or appropriate cure to the situation. In making a decision, the Board may determine that grounds do not exist for granting the grievance and therefore may deny and dismiss the grievance. Said determination may be premised upon:

- The employee's failure to carry his/her burden of proof
- His/her failure to satisfy the procedural requirements of the grievance process
- His/her failure to rely upon acceptable reasons for filing a grievance
- The harassing nature (in whole or in part) of a grievance
- Any other appropriate reason

The Board will deliver a written decision within fourteen (14) working days of the conclusion of the grievance hearing, which shall be delivered to all parties. The decision of the Board shall be final.

Employee Conduct

Employees of the City of Cullman are expected to maintain high standards of cooperation and efficiency in their work. Each employee is expected to display conduct in such a manner as to reflect credit upon both himself/herself and the City. Maintaining high standards of honesty, integrity and conduct by City employees is essential to ensure proper performance of City business and to maintain the confidence of the citizens we serve.

Dress Code / Hygiene Policy:

Employees are expected to maintain good personal hygiene, and a clean, well-groomed appearance while on duty. Dress and appearance should be appropriate to the nature of the work performed and should not create safety concerns, violate departmental uniform policy, disrupt operations, or detract from a professional workplace environment. Department Heads shall have the right to determine the appropriateness, and definition of professional attire and appearance in their respective departments in accordance to operational needs and the duties of their employees.

Unauthorized Leave:

Absence Without Leave: (AWOL):

An absence without leave is defined as an unauthorized absence when scheduled to work. An employee arriving for duty after the designated shift time and not reporting to their supervisor before thirty (30) minutes of their scheduled shift having elapsed will be considered AWOL and is subject to progressive discipline.

Progressive discipline for AWOL violations shall be as follows:

- First AWOL in a 12-month period: Written Reprimand
- Second AWOL in a 12-month period: Suspension for (3) working days or equivalent of 24 hours.
- Third AWOL in a 12-month period: Dismissal
- Unauthorized or unreported absence from work for a period of three scheduled working days or more may be considered a resignation.

Tardiness:

An employee not arriving to work on time without prior authorization, who contacts his supervisor or arrives to work prior to thirty (30) minutes of their scheduled shift having elapsed will be considered “late”. Employees arriving after thirty (30) minutes have elapsed will be permitted to work only if authorized by their supervisor.

- An employee who is late but works the remainder of their shift will not be paid for the “late time”
- An employee not permitted to work, will be considered on “leave without pay” for the day.

Repeated lateness will be subject to the progressive discipline policy outlined in this handbook.

Absence from Job Site:

City employees are expected to report to their workplace on time when scheduled to work and to remain on the job unless authorized to leave by their supervisor. Unauthorized absences from the jobsite shall be subject to progressive disciplinary action.

Disciplinary Policy:

To ensure orderly operations and provide the best possible work environment, the City of Cullman expects employees to follow rules of conduct that will protect the interests and safety of all employees and citizens.

It is not possible to list all the forms of behavior that are considered unacceptable in the workplace; however, the following are examples of infractions of rules of conduct that may result in disciplinary action up to and including termination of employment, but in no way are restrictive as to the reasons which may form a valid basis for disciplinary action:

Formal Coaching:

When work habits, attitude, productivity or personal conduct of an employee falls below an acceptable standard, supervisors should point out the deficiency at the time that it is observed. This creates an opportunity for the supervisor to discuss with the employee the problem or violation of company policy and procedures. When possible, this warning should be given in sufficient time for improvement and should precede formal disciplinary action, but nothing in this section shall prevent formal disciplinary action whenever the best interest of the City of Cullman requires it.

Verbal coaching should be documented in detail on the standardized form which details the issue being discussed, the expected action, as well as a time frame for improvement. The form should be signed by both the employee and the supervisor who administers the coaching. A copy should be given to the employee, and a copy must be forwarded to the Human Resources office to be retained in the employee's file.

It is the duty of each employee to correct any deficiency in performance, conduct, or attitude on their own initiative or when called to the employee's attention and to make every effort to avoid conflict with the personnel rules and procedures. It is the responsibility of every supervisor to discuss improper or inadequate performance with the employee to correct deficiencies and to avoid the need to exercise disciplinary action. However, failure of a supervisor to carry out this responsibility shall not preclude the discipline of an employee. Additionally, the supervisor who fails in this duty may also be subject to disciplinary action.

Progressive Discipline:

The City of Cullman's progressive discipline policy and procedures are designed to provide a structured corrective action process to improve and prevent the recurrence of undesirable employee behavior and performance issues. Outlined below are the steps of the City of Cullman's progressive discipline policy and procedures.

The City of Cullman reserves the right to combine or skip steps depending on the facts of each situation and the nature of the offense. Furthermore, employees may be terminated without prior notice or disciplinary action.

Some factors that will be considered are whether the offense is repeated despite coaching, counseling or training, the employee's work record, the severity of the offense, and the impact the conduct and performance issues have on the organization, and other employees. Behavior that is illegal is not subject to progressive discipline and may result in immediate termination. Such behavior may be reported to local law enforcement authorities. Similarly, theft,

substance abuse, intoxication, falsification of documents, fighting and other acts of violence and sexual harassment are not subject to progressive discipline and may be grounds for immediate termination.

Probationary employees are not subject to progressive discipline. During the probationary period, an employee may be terminated by the Mayor, with or without cause, with appropriate documentation.

Nothing in this policy provides any contractual rights regarding discipline or counselling, nor should anything in this policy be construed as modifying or altering the employment-at-will relationship between the City of Cullman and its employees.

Documentation:

The employee will be provided with copies of progressive discipline documentation and performance improvement plans. The employee will be asked to sign copies of this documentation attesting to their understanding of the corrective action outlined in these documents. Copies of these documents will be placed in the employee's official personnel file.

Step 1: Verbal Reprimand

Whenever grounds for disciplinary action exist and the Department Head determines that more severe action is not necessary, the Department Head, or other designated official, may verbally reprimand an employee when the employee fails to maintain desirable standards, or violates the policies, rules, or procedures of the department, or the City of Cullman. The official should discuss the nature of the problem or violation with the employee and clearly describe the actions the employee must take to improve their performance or resolve the problem. Within five business days, the supervisor will prepare written documentation of the verbal reprimand. The employee will be asked to sign the document to demonstrate their understanding of the issues, the notice of violation, and the corrective action. A copy of the document will be provided to the employee, and a copy must be forwarded to Human Resources to be maintained in the employee's personnel file.

Step 2: Written Reprimand with Performance Improvement Plan (PIP)

The Department Head may issue an official written reprimand to an employee, if the seriousness of the offense calls for action greater than a verbal reprimand, or if previous coaching discussions or verbal reprimands have been administered. The Department Head will meet with the employee to review the incidents regarding performance, conduct, or attendance issues, as well as any prior relevant corrective action plans. The Department Head will outline the consequences to the employee of their continued failure to meet performance or conduct expectations. The written warning may also include a statement indicating that the employee may be subject to additional discipline, up to and including termination, if immediate and sustained corrective action is not taken. The employee will be asked to sign the written document to demonstrate their understanding of the issues, the notice of violation, and the corrective action. A copy of the document will be provided to the employee, and a copy must be forwarded to Human Resources to be maintained in the employee's personnel file. A formal Performance Improvement Plan (PIP) outlining the employee's immediate and sustained corrective action will be issued within five business days of a Written Reprimand meeting.

Step 3: Suspension/or Demotion

Suspension during investigation or pending hearing:

Some performance, conduct or safety incidents are so problematic or harmful that the most effective action may be the temporary removal of the employee from the workplace. When immediate action is necessary to ensure the safety of the employee or others, or the efficient operations of the City, the Mayor may suspend the employee pending the results of an investigation or the outcome of a pre-disciplinary hearing. This suspension may be paid or

unpaid depending on the circumstances of the individual case. If unpaid, pay may be restored to the employee if an investigation of the incident absolves the employee of wrongdoing.

Suspension as Recommended Discipline or Demotion:

Suspensions or demotions that are recommended by the Department Head as part of the normal sequence of the progressive disciplinary policy and procedures are subject to the approval of the Human Resources Director and final approval shall be given by the Mayor.

Suspensions can be recommended in increments of 3, 5, 10 or 15 working days, or the equivalent thereof for those not working eight-hour shifts.

Any Department Head who wishes to demote or suspend an employee must notify the Human Resources Director of the allegations against the employee, and an investigation will be conducted by Human Resources. During the investigation phase, depending on the seriousness of the infraction, the employee may be placed on administrative leave with or without pay in full day increments consistent with federal, state and local wage and hour employment laws. Non-exempt/hourly employees may not substitute for or use an accrued paid vacation or sick day in lieu of unpaid suspension.

If the investigation concludes that there is merit to the allegations made against the employee and that City rules and policies have been violated, the employee will be notified in writing that the Department Head has recommended disciplinary action against them. A hearing with the Mayor will be scheduled, and the date and time of the hearing will be provided to the employee as part of the notification. (see Rights of Appeal listed below)

In compliance with the Fair Labor Standards Act (FLSA), unpaid suspension of salaried employees is reserved for serious workplace safety or conduct issues. Human Resources will provide guidance to ensure that the discipline is administered without jeopardizing the FLSA exemption status.

Step 4: Termination

The last and most serious step in the progressive discipline process is a recommendation to terminate employment. Generally, the City of Cullman will try to exercise the progressive nature of this policy by first providing coaching, warnings and suspending the employee from the workplace before proceeding to a recommendation to terminate employment. However, the City of Cullman reserves the right to combine and skip steps depending on the circumstances of each situation and the nature of the offense. Furthermore, employees may be terminated without prior notice or disciplinary action. Management's recommendation to terminate employment must be approved by the Human Resources Director, and final approval shall be required from the Mayor, or designee.

Rights of Appeal:

Verbal reprimands and written reprimands are not subject to appeal. The appeal process applies to all full-time employees in the Classified Service. The appeal process for suspensions, demotions, or terminations is outlined as follows:

Mayor as Appointing Authority Hearing:

When a recommendation has been received for disciplinary action against a full-time, permanent employee that includes suspension, demotion or termination, the Mayor will provide the employee with at least seven (7) working days written notice. A pre-disciplinary hearing with the Mayor or designee, is required, and will be scheduled with the date and time provided to the employee as part of the written notification. The employee may choose to waive the hearing and accept the recommended discipline, or they may choose to have their case heard before the Mayor. Employees will have the opportunity to present information to dispute information that management has used to recommend disciplinary action. The purpose of this process is to provide insight into extenuating circumstances that

may have contributed to the employee's performance or conduct issues while allowing for an equitable solution. Employees will be given a period of three business days after the hearing with the Mayor to present any supporting documentation that was not available during the meeting. The Mayor shall have the power to:

- Affirm the disciplinary action recommended by the Department Head
- Dismiss the disciplinary action recommended
- Modify (by either lessening or increasing) proposed disciplinary action taken and prescribe the proper penalty if satisfied the employee should receive some disciplinary action

Following the hearing, the employee will be informed in writing of the decision regarding the proposed action. If the Mayor elects to affirm or modify the recommendation for disciplinary action, the date on which this decision is issued will become the effective date of the action.

Appeal to the Personnel Board:

An employee with permanent status shall have the right to appeal any disciplinary action taken against him which affects his classification or pay.

- If the employee wishes to appeal the action against him, he must file a written request for appeal with the Mayor's office within seven (7) working days after the disciplinary decision is issued.
- Within seven (7) working days of the receipt of the appeal request, the Mayor shall file with the Chairman of the Personnel Board notice of the hearing request and a complete set of charges and complaints against the employee.
- After specific complaints and charges have been filed, the Chairman of the Board shall call a meeting of the Board to be held within thirty (30) days after the receipt of the charges for the purpose of hearing the protest or appeal.
- The employee and the Mayor shall be notified by certified mail, at least ten (10) days prior to the meeting date, of the time and place of such a meeting.

The Board shall have the power to continue the hearing from time to time as may be necessary. The members of the Board shall have power to administer oaths, take depositions, certify official acts and to subpoena and compel attendance of witnesses and the production of books, documents, accounts and records pertaining to the matter under investigation. Subpoenas issued as provided herein shall be served and the service fee shall be the same as that provided by law for the service of subpoenas issued by a court. Payment of fees for witnesses summoned at the request of the City or the Board shall be considered expenses of the Board and shall be paid from the treasury of the City. The Board shall have the right to invoke the aid of a court of law in the event a person who is duly summoned to appear and testify or produce evidence refuses to attend or testify or produce evidence in obedience to such a summons. Any employee of the City who fails to obey a subpoena may be dismissed by the Board or receive other such disciplinary action that the Board deems proper. The City Attorney may be called upon to appear in proceedings before the Board to represent the interests of the City. The employee and the Mayor shall have the right to be represented by counsel. Proceedings before the Personnel Board shall be taken down by a qualified court reporter. The court reporter shall certify a transcript of the proceedings at the request of the City Attorney. The certified transcript shall be the official record of the proceedings before the Board. The court reporter shall administer oaths. In addition, the court reporter shall mark any exhibits entered at the hearing and take such exhibits into custody and include them as part of any transcript of the hearing. The Board shall adopt its own rules of practice and procedures and shall not be bound by technical rules of evidence; however, the presiding officer of the Board may at his/her discretion, exclude any evidence which he/she deems to be irrelevant to the issue before the Board. The Board shall have the power to:

- Affirm the disciplinary action
- Reverse the disciplinary action of the Mayor
- Modify the disciplinary action taken and prescribe the proper penalty if it is satisfied that the employee should receive some disciplinary action
- If the Board decides the employee be should reinstated, they may order them reinstated with or without backpay.

- If they order the employee to be reinstated with backpay, such pay shall not exceed the amount the employee earned during the 30-day period preceding the disciplinary action taken against him.

A copy of the Board's decision shall be filed with the City Clerk, and a copy filed with the employee or his/her attorney. The decision shall become effective immediately upon filing with the Clerk. The decision of the Board shall become final within ten (10) days of being filed with the Clerk unless the employee, the governing body, or the Administrative Officer files a notice of appeal with the Court. The Board's decision may be enforced through appropriate court proceedings if necessary.

Appeal to the Court:

The employee, Mayor, or the governing body may, within ten (10) working days after the decision of the Board is filed with the City Clerk, appeal to the Circuit Court any decision of the Board by filing notice of such appeal with the Court and causing a copy of such notice to be served on the other affected parties or officials. The Board shall furnish the court with a certified transcript of the proceedings which was heard before it with respect to the appeal and its decision in the matter. No bond shall be required for such an appeal and the cost of such an appeal shall be taxed against the unsuccessful party or as the judge may direct. Review by the Court shall be without jury and be confined to the record presented and to a determination of the questions of law present. The Judge's findings of facts shall be final and conclusive. Appeal may be taken from the judgment of the Circuit Court as provided by law.

Uniform Policy:

When an employee is issued a uniform, it shall be worn in its entirety during working hours. Uniforms shall be worn in a manner which reflects an impression of neatness, cleanliness, and professionalism, as these employees may have frequent, direct contact with the public. Each department will be responsible for establishing processes and guidelines for uniforms for their employees. Deviations from the department's uniform policy must be approved by the Department Head.

“Uniform allowance” means those monies paid by the City for the purchase of work uniforms for employees required to wear uniforms in the performance of their assigned duties. Misuse of uniform allowance funds will result in disciplinary action. Examples of misuse include, but are not limited to:

- Purchasing items for the employee's personal use
- Purchasing items for a person other than the employee
- “Transferring” unused uniform balances to another employee
- Receiving money, or other consideration, from another person in return for goods purchased with uniform allowance funds

In no event shall this section apply to elected officials. When off duty, out of uniform, and acting as a private citizen, no employee shall be prohibited from engaging in City, County or State political activity or denied the right to refrain from engaging in political activity so long as there is compliance with this rule. Any person who violates this policy shall be subject to discipline.

State Ethics Requirements:

The City of Cullman and its employees must comply with Alabama Ethics Law. Employees are required to be familiar with and to abide by the State ethics laws applicable to municipal employees. All employees who are required to file a "Statement of Economic Interests" form in accordance with Section 36-25-14, Code of Alabama (1975), as amended, must complete all required training and comply with all requirements specified on the form. No employee shall, other than in the ordinary course of business, solicit a thing of value from a subordinate or person or business with whom he or she directly inspects, regulates, or supervises in his or her official capacity. No employee shall use, or cause to be used, equipment, facilities, time, materials, human labor, or other public property under his or her discretion or control for the private benefit or business benefit of the employee. No employee shall accept or solicit any money or other consideration or favor from anyone other than the City for the performance of an act which the officer or employee would be required or expected to perform in the regular course of employment; nor shall any officer or employee accept, directly or indirectly, any gift, gratuity, or favor of any kind which might reasonably be an attempt to influence the individual's actions with respect to City business.

Smoking and Smokeless Tobacco Policy:

In keeping with the City of Cullman's intent to provide a safe and healthy work environment and as provided by City ordinance prohibiting smoking in public buildings, there shall also be no smoking or smokeless tobacco, electronic cigarettes, e-cigars, vape pens or other electronic nicotine delivery systems used in City owned vehicles or buildings. This policy applies equally to all employees.

Substance Abuse Policy:

The City intends to provide a safe and efficient working environment for all employees and as a result will not tolerate drug or alcohol use, which imperils the health, safety, and well-being of its employees, citizens, or any aspect of the City's operation. It is the intention of this policy to eliminate substance abuse and its effects in the workplace. For the purpose of this policy, "substance" or "drugs" is defined in the broadest sense to mean any

mood-altering drug or chemical, including alcohol, that may result in physical, mental, emotional or other impairment to normal function and performance. Any employee who thinks they may have a drug or alcohol problem is encouraged to seek assistance. The City of Cullman will work with those employees who are seeking professional help. The City will also be firm in enforcing this policy against those identified as substance abusers who are not seeking help.

Prohibited Conduct and Removal from Duties:

The following conduct is expressly prohibited and violations shall result in disciplinary action, which may include termination.

- Use, consumption, possession, manufacture, growth, distribution, dispensation or sale of controlled substances, or illegal drug paraphernalia on City of Cullman premises, in City supplied vehicles, in any City work area, or while on duty as a City employee, including during break periods
- Unauthorized use of City owned vehicles, equipment, computers, facilities, phones, electronic devices, or any other asset of the City of Cullman to facilitate the use, purchase, sale, consumption, or manufacture of illegal or controlled substances.
- Unauthorized use, consumption, possession, manufacture, distribution or sale of alcohol, while on duty, or during break periods, on City premises, in City supplied vehicles or in any City work areas.
- Any employee who arrives for work under the influence of alcohol or illegal drugs will be subject to discipline or immediate discharge.
- Employees shall not report to work while taking any prescribed medication with known side effects may affect the employee's ability to perform his/her job duties, unless the employee has a written statement from his/her physician that such medication will not impair the employee's judgement or ability to safely perform job tasks.
- The unlawful involvement with drugs or narcotics off City property during non-working hours will constitute grounds for discipline or termination if this involvement adversely affects the City of Cullman's interests or reputation.
- It is a violation of the City's substance abuse policy for any employee to use prescription drugs in an unlawful manner.
- It is a violation of City's substance abuse policy to alter, attempt to alter, adulterate, or dilute a urine specimen during a drug screening.
- It is a violation of City's substance abuse policy to attempt to substitute a urine specimen during a drug screening.
- It shall be a violation of City's substance abuse policy for any employee to refuse to take or complete any drug or alcohol test as required by this policy.
- It is a violation of City's substance abuse policy for a supervisor to allow an employee known to be in violation of these rules to perform or continue to perform safety-sensitive functions.

An employee who knows or believes that there is unlawful involvement with drugs or narcotics or involvement with alcohol that is contrary to this policy should refer the information promptly to the Risk Management Director. The City will utilize all legal investigative techniques available, including testing and analysis which are required to detect policy violations. Any employee who refuses to submit to the requested tests will be subject to discipline, including termination. Employees who are charged or convicted of a criminal drug offense, including DUI, must inform the Risk Management Director within five days of the arrest or conviction. Such an occurrence may constitute grounds for discipline or dismissal.

Types of testing:

Compliance with the alcohol and drug testing policy is a condition of full-time employment with the City of Cullman. Compliance with the reasonable suspicion or post-accident testing policy shall include all employees regardless of status. Failure or refusal of an employee to fully cooperate including failure to submit to inspections or tests called for by the policy or to fulfill agreements will be grounds for disciplinary action, including termination.

Pre-employment Testing:

A negative pre-employment drug test is required before an employee can perform safety-sensitive functions and any conditional offer of employment is contingent upon the applicant successfully completing the drug screening. Employment will be denied to any applicant whose drug screen reveals the presence of any illegal substances. Safety sensitive is defined as: positions that involve health, safety, functions that require a high degree of trust and confidence, operation of company vehicles, machinery or equipment (the mishandling of which may place fellow employees or the general public at risk of serious injury or create a security risk in the workplace) and the handling of hazardous material. Examples of safety sensitive positions (not an exhaustive list)

- Law enforcement officers
- Firefighters
- Dispatchers
- Machinery operators
- Drivers
- Water, sewer and street laborers
- Jail officers
- Lifeguards
- General laborers

Reasonable Suspicion Testing:

Whenever a City of Cullman Department Head or other supervisor has reasonable suspicion to believe that an employee on duty is intoxicated or under the influence of alcohol or drugs, the employee will be ordered to submit to a drug and/or alcohol test. Refusal of an employee to submit to the test will be cause for discipline, including termination. Reasonable suspicion exists when an employer has a good faith belief, based on specific articulable facts, that an employee may be under the influence of drugs or alcohol. This belief is more than hunch or feeling but must be supported by observable evidence of potential impairment that would cause a reasonable person to suspect that the employee is or has been using drugs and/or alcohol. Reasonable suspicion behavior includes, but is not limited to:

- Slurred speech
- Unsteady gait
- Smell of alcohol
- Lapse in cognitive abilities
- Erratic or unusual disruptive behavior
- Excessive drowsiness
- Unusual excitability
- Disorientation
- Unexplained changes in personality
- Direct observation of drug or alcohol use
- A report of prohibited drug or alcohol use by a credible source
- Evidence that a drug or alcohol test of the employee has been tampered with
- Evidence that the employee is involved in the use, possession, sale, solicitation or transfer of prohibited drugs
- Changes in appearance and demeanor
- Unexplained, significant deterioration of job performance

It is the duty of the Department Head and/or supervisor to take immediate action when reasonable suspicion exists. The employee must immediately be removed from duty and must remain on City premises while an appointment for reasonable suspicion testing can be arranged. Risk Management and/or Human Resources must be notified

immediately to facilitate the testing appointment. Department Heads will have access to the Risk Management and/or Human Resources Directors' after-hours contact information for situations occurring after City Hall business hours.

The employee should be transported to the testing facility by a supervisor, and under no circumstances should he/she be allowed to operate a vehicle.

The observed conduct that arouses suspicion of drug or alcohol abuse shall be documented in writing by witness(s) as soon as possible following observation. A copy of this documentation shall be provided to the Director of Risk Management and/or Human Resources. Following testing for reasonable suspicion, a City representative will transport the employee back to City premises, where in the event of a positive test, a spouse, family member or other individual will be contacted to transport the employee to his/her home. Under no circumstance should an employee who tests positive be allowed to operate a vehicle. If the employee refuses to assent to any of these procedures and attempts to operate his own vehicle, the City will make appropriate efforts to discourage them from doing so, up to and including contacting local law enforcement.

Any employee failing to cooperate with any of the procedures described above will be subject to discipline, up to and including termination.

Post Accident or Incident Testing:

When an employee is involved in an accident or incident which causes or could have caused personal injury or property damage, that employee will be considered for testing if the employee's performance caused, contributed to or cannot be reasonably discounted as a contributing factor for the accident.

For testing following an accident, the Department Head or supervisor making the decision shall be guided by the seriousness of the accident event such as whether the accident produced significant damages or injuries or death to any person; the degree of negligence or fault of the employee in the accident, as related by witnesses, circumstances and best information; any direct or circumstantial evidence indicating recent drug or alcohol use by the employee involved in the accident.

Safety sensitive employees will be tested after any work-related injury or accident where:

- An employee is injured beyond the need for simple first aid
- Property or vehicles are damaged
- An employee has caused or contributed to an on-the-job injury which results in loss of work time
- An injury which is a workers' compensation injury or accident where a supervisor has the belief that an employee's acts or omissions contributed to the occurrence or the severity of the accident.

All cases involving post-accident testing must be immediately reported by the supervising employee, in writing, to the Risk Management Director. Department Heads will have access to the Risk Management Director's after-hours contact information for accidents requiring immediate attention after City Hall business hours. Such reports shall detail the specific facts or observations which formed the basis for the determination to require testing.

The facts underlying the determination to require testing shall be disclosed to the employee at the time the order is given. Reporting failure on the part of a supervisor will result in disciplinary action.

Employees are prohibited from using alcohol within eight hours following an accident or until testing or initial screening is completed. Any screen test for alcohol should be completed within two hours of a work-related accident or as soon thereafter as practicable.

All employees are put on notice that a positive, confirmed drug or alcohol test following on-the-job accident is evidence of "willful misconduct" under this policy and disqualifies the employee from receiving workers'

compensation benefits or use of paid leave. An employee who is so seriously injured as to be unable to provide a specimen at the time of the accident will afterwards be required to authorize the release of hospital or medical facility records that would reveal the presence of controlled substances and/or alcohol.

Refusal to submit to a drug/alcohol test or to allow access to medical records that would reveal the presence of controlled substances will result in removal from duty and possible disciplinary action, including termination.

Substance Abuse Employee Assistance Policy:

It is the City's policy to encourage any employee with an alcohol or drug dependency or concern to seek professional assistance before the problem leads to an incident that may result in discipline or termination. An employee who voluntarily reveals an alcohol or drug problem to the Risk Management Director may enter the Employee Substance Abuse Assistance Program and voluntarily enroll in a drug or alcohol rehabilitation program if:

- Disclosure is made before being notified of selection for an alcohol or drug screen
- Disclosure is made before testing positive for alcohol or drugs
- Disclosure is made before other discovery of an alcohol or drug problem

An employee's request to submit to an alcohol or drug rehabilitation program or participation in the Employee Substance Abuse Assistance Program does not waive the application of the Substance Abuse Policy to the employee. An employee who has a positive test for drugs or alcohol; however, will not be permitted to perform his/her duties until he/she successfully completes a rehabilitation program evaluation, and will be required to sign a "last chance agreement."

The employee's return to work following the successful completion of a rehabilitation program and a negative drug screen will be determined by the Risk Management Director in consultation with the employee's counselor and the independent, licensed health care professional (Independent Medical Evaluator) chosen by the City. Employees who have been referred to counselling or rehabilitation under this policy shall be required to fully cooperate with and participate in their rehabilitation and with the recommendations of the program administrator. Failure to cooperate with the rehabilitation efforts may result in termination.

Work time lost for counselling or rehabilitation will be paid based on the availability of sick or vacation leave. Medical benefits will be available as provided under the employee's medical insurance depending on the medical diagnosis by the counselor or physician.

Unscheduled and observed testing of employees who have previously tested positive may continue for up to sixty months as recommended by the City's independent medical evaluator. Failure to cooperate with these unscheduled tests will result in discharge. Employees entering a last chance agreement will be subject to random testing by a listed facility. Throughout their sixty (60) month commitment the cost of testing will be the employee's responsibility. This cost shall in no way reduce the employee's effective wage below minimum wage. The frequency of testing shall be determined by the Risk Management Director.

A positive drug screen test result following an opportunity for rehabilitation will result in termination of employment

All information involving medical examinations, counseling, rehabilitation or treatment of an individual employee or applicant shall be treated as confidential medical information. All such information will be accessible only to the Mayor, Risk Management Director, Human Resources Director, and legal team, on a valid, need-to-know basis. It will not be provided to any other party without the written consent of the applicant or employee, except pursuant to the administrative or legal procedure or process. In response to subsequent inquiries regarding an employee's discharge for any violation to this substance abuse policy, the Human Resources Department shall state that the employee was terminated for violation of City policy unless the City can legally provide additional information.

Employee Safety

The City of Cullman employees are a valuable resource, and their health and safety are therefore a serious concern. The City intends to provide a safe and efficient working environment free of recognized hazards that could potentially cause occupational injury or illness. The Risk Management Director and/or designated representative, in coordination with the Department Head or their designee, shall be responsible for effectively implementing and enforcing the policies of the City's safety programs, including but not limited to, safety inspections, accident investigations, and the establishment of safety standards for employees, equipment, and facilities. Department Heads shall be responsible for ensuring compliance with all safety policies and procedures. All employees must cooperate with and assist the Risk Management Director or designated representative in safety administration. Supervisors must aggressively pursue the promotion of safety to ensure that goals and objectives are accomplished. Violations of safety standards, rules and regulations or accidents resulting due to negligence of an employee shall subject the employee to disciplinary measures. Each employee must comply with the City and departmental accident prevention rules and requirements. Unsafe conditions and/or acts should be promptly reported to his/her immediate supervisor.

Occupational Illness, Accident and Injury Reporting Policy:

It is mandatory that all workplace injuries, accidents, and illnesses are reported to the Risk Management Director as soon as reasonably possible after they occur. Prompt reporting allows for prompt identification and correction of hazards and prompt medical attention for injuries. In some instances, the employee may not immediately realize that they have been injured or made ill. In such circumstances, the employee must report the injury or illness as soon as reasonably possible after becoming aware of the injury or illness. Failure to report such injury or property damage, or otherwise not adhering to the safety rules and requirements, may result in disciplinary action, up to and including termination. The following policy applies to work-related accidents, illness or injuries:

The employee must contact their supervisor and explain that they are reporting a work-related illness or injury.
- Supervisors must not interfere with or attempt to discourage reporting under this policy.

Fitness for Duty Policy:

The City of Cullman is committed to maintaining a safe work environment for all employees; therefore, every employee must be able to perform his or her job duties in a safe, secure and effective manner in order to ensure that the health and safety of those around them is not jeopardized. This policy does not limit the City’s right to take employment action under its normal disciplinary policies and procedures. Employees who fail to perform his/her job functions and/or engage in misconduct may face disciplinary action up to and including termination notwithstanding a referral for a fitness for duty evaluation. Employees who refuse to undergo a fitness for duty evaluation or refuse to cooperate with any aspect of the process, may face disciplinary action, including suspension or termination. Additionally, the employee’s participation in a recommended treatment or rehabilitation program does not guarantee continued employment and may not necessarily prevent disciplinary action for violation of City policies.

Purpose:

The purpose of a fitness for duty evaluation is to address whether an employee has a medical or psychological condition that may pose a potential threat to the employee or others in the workplace. An employee may be required to undergo a fitness for duty evaluation (either medical or psychological) when an employer has objective evidence that an employee either is unable to perform the essential functions of their job due to a medical or psychological condition, with or without reasonable accommodation or poses a direct threat to themselves or others. The basis for seeking a fitness for duty evaluation may come from a supervisor’s own observations and/or receipt of a reliable report of the employee’s possible lack of fitness for duty from a third party. Examples of the types of impairments that may warrant the request for a fitness for duty evaluation include, but are not limited to:

- Use, possession or influence of alcohol or illegal drugs
- Use of legal drugs that adversely affect the employee’s ability to perform their job functions safely
- Slurred or incoherent speech
- Observed problems with vision, awareness, coordination or dexterity
- Aggressive or threatening behavior
- Unpredictable mood or behavioral changes
- Drowsiness, sleepiness or other signs of fatigue
- Any other physical or psychological condition or behavior that affects the employee’s ability to perform their job functions successfully and safely.

Independent Medical Evaluator:

The fitness for duty evaluation, if required by the City, will be referred to and conducted by an independent, licensed health care professional (Independent Medical Evaluator) chosen by the City. The Independent Medical Evaluator will not be a treating physician of the employee. The City is responsible for paying for any fitness for duty evaluation required by the City. If the employee wishes to get a second opinion or an additional evaluation from another provider, the employee is responsible for paying the cost of any additional evaluations.

Use of Leave Time:

An employee undergoing a fit for duty evaluation who is taken out of service may use accrued sick leave that is available to them. If sick leave is exhausted, the employee may use vacation leave to cover absences.

Administrative leave may be granted in lieu of sick or vacation leave at the discretion of the Mayor. An employee who is deemed fit for duty, who used accrued leave while undergoing a fitness for duty evaluation, may have the leave time restored to them with approval from the Mayor. An employee who is deemed fit for duty, who was on unpaid leave while undergoing a fitness for duty evaluation, may have lost pay restored to them with approval from the Mayor.

Results of Fitness for Duty Evaluation:

The Independent Medical Evaluator will perform the evaluation of the employee and any necessary testing and will provide the City with their medical opinion as to the employee's fitness to perform their job functions. The City may use the fitness for duty evaluation results to make decisions regarding the employee's employment status, including without limitation, as applicable, whether they can continue in their current position, and whether a reasonable accommodation, if requested by the employee, can be provided.

Confidentiality:

To the extent allowed by law, the City shall protect the confidentiality of the evaluation and the results. Employee medical information provided by the employee to the City is maintained on a confidential basis in accordance with applicable law. When conducting a mandated fitness for duty evaluation, the City may ask the employee to sign consent forms that permit productions of medical health information to the Independent Medical Evaluator. If the employee releases medical health information to the Independent Medical Evaluator, the employee may opt to not have the medical health information released to the City.

City Vehicle Policy:

City owned vehicles shall not be used by officers or employees of the City for personal purposes, except as authorized. The Mayor of the City of Cullman may authorize, in the interests of the City, the use of City vehicles by certain officers or employees for commuting to and from work with the understanding that this use of non-exempt vehicles shall be taxable to the officer or employee in accordance with the IRS regulations. City vehicles shall only be operated by City of Cullman employees. Employees operating City-owned vehicles have no expectation of privacy in the use of such vehicles and are subject to monitoring through both GPS tracking and onboard camera systems. Monitoring may occur at any time for reasons of safety, security, compliance, and operational oversight. Internal Revenue Service rules will be complied with for those driving vehicles not exempted from the fringe benefits guidelines. Exemptions include emergency vehicles or service vehicles driven by employees on call. Employees, except for department heads, approved for take home vehicles who live more than thirty (30) miles from their workplace will reimburse the City for the mileage in excess of thirty (30) miles at the prevailing rate paid to employees driving a private vehicle on City business with reimbursement to be deducted from the employee's salary. All employees appointed to a position that requires the operation of a motor vehicle must have a valid State of Alabama driver's license. Employees are required to notify their supervisor if their driver's license has been revoked or suspended for any reason. Employees who are charged with a DUI must report the arrest to their supervisor immediately and the supervisor should report to the Risk Management Director immediately. Any employee convicted of a DUI charge will not be eligible to drive a City of Cullman vehicle for a period of five years following conviction. Failure to report a suspended/revoked license or an arrest for DUI may result in disciplinary action. Please refer to the Driver Acceptability Matrix located at the back of this handbook for information regarding moving violations and accidents.

Use of Cell Phones and Mobile Devices in Motorized Vehicles Policy:

Using cell phones or other electronic devices while driving leads to increased risk of accidents. Distracted driving is a serious safety risk not only to the driver but also to other occupants in the vehicle, other vehicles on the road and pedestrians. In order to reduce these risks, certain conduct is prohibited while driving a City of Cullman vehicle or while driving a personal vehicle while on duty. All employees are expected to follow applicable local, state and federal laws and regulations regarding the use of cell phones at all times. All employees must refrain from using cell phones, mobile devices, laptops and tablet devices, or participating in any other activity that may distract them from safely operating a motor vehicle. This policy also applies to the use of all other electronic devices including but not limited to PDA's, MP3 players, smart watches or other wearable electronics. GPS devices are permitted so long as the navigation is set prior to driving and the GPS is secured in a safe location that does not obstruct the driver's view of the road. This policy applies to both personal and City provided devices. In 2023, the State of Alabama passed the "Steve Hatcher Act" prohibiting holding or using a wireless device while driving, including while stopped at red lights. Drivers must pull over safely to the side of the road or another safe location before checking messages, returning calls, text messaging, emailing, reading maps for directions or programming/resetting GPS devices. Employees are not permitted to read or respond to emails or text messages while operating a motor vehicle (in motion or stopped in traffic) while on duty or operating a City of Cullman owned motor vehicle. Employees are not permitted to use the internet (including mobile applications and social media) while operating a motor vehicle (in motion or stopped in traffic) on duty or operating a City of Cullman owned motor vehicle. Employees are not permitted to read maps or any type of document, printed or electronic, while operating a motor vehicle (in motion or stopped in traffic) while on duty or operating a City of Cullman owned motor vehicle. Employees are never permitted to use headphones or earbuds while operating a motor vehicle (in motion or stopped in traffic) while on duty or operating a City of Cullman owned motor vehicle. Employees are permitted to use a hands-free device to talk on their cell phone. Hands free calls must be completely hands free, meaning that your phone cannot be touched in order to place, alter or end the phone call.

First Responders:

The City of Cullman recognizes authorized emergency public safety personnel, while performing official duties, have access to in-vehicle mobile devices. Personnel are expected to stop in a safe spot when using their phones, laptops, and tablets, except in emergency instances when they have no choice but to use the devices on the move. Outside of emergency situations all City cell phone and mobile device policies apply and are encouraged for both the safety of the public and the City's personnel.

Sanitation Truck Operations:

Sanitation trucks equipped with mounted tablets may be used only for the purpose of routing and GPS navigation and only when:

- The tablet is mounted securely at dashboard level or cowl on the doghouse of the truck and equipment.
- The device does not obstruct the driver's forward view.
- All destinations are entered **before** the vehicle begins moving.
- No manual adjustments are made while driving; drivers must pull over to adjust any settings
- Use is confined to route work for servicing customers and not while actively driving the vehicle

Employees violating this policy will be subject to discipline, up to and including termination of employment.

Seat Belt Usage Policy:

The City of Cullman requires seat belt use by all employees driving City owned vehicles, passengers in City owned vehicles, all employees operating a personal vehicle while engaged in City business, and employees riding as a passenger in a personal vehicle while on City business.

AI Assistants:

The City of Cullman recognizes that the use of AI assistants can provide substantial gains in operational efficiency. However, these efficiency gains must be balanced with safeguarding citizen privacy, particularly regarding Personally Identifiable Information (PII). This policy's goal is that AI is leveraged to enhance operational efficiency, improve citizen services, and maintain transparency and trust.

- There are risks in using generative chatbots (Microsoft Co-Pilot, OpenAI's ChatGPT, Google Bard, etc.), including uncertainty about who owns the AI-created content and security/privacy concerns with inputting confidential, PII or sensitive information about an employee, citizen, business, etc., when interacting with the chatbot. Additionally, the accuracy of the content created by these technologies cannot be relied upon, as the information may be outdated, misleading or—in some cases—fabricated. The use of AI tools must ensure the protection of citizens' privacy and uphold compliance with all applicable data privacy regulations, including local laws, state laws, and federal regulations.
- Types of Data to Avoid Uploading to AI Systems:
 - Personal Identifiable Information (PII)
 - Full name
 - Social security number (SSN)
 - Address
 - Phone number
 - Email address
 - Date of birth
 - Medical history
 - Disability status
 - Health insurance details
 - Bank account details
 - Credit card numbers
 - Tax information
 - Law enforcement records
 - Legal documents related to ongoing investigations or litigation
 - Any classified or sensitive governmental information which may not be publicly disclosed.
- Only the minimum required data should be used for processing by AI systems. Personal or sensitive data must be anonymized or aggregated whenever possible.
- AI systems must maintain an audit trail of all interactions, especially those involving sensitive data. These logs should be regularly reviewed to ensure compliance with privacy and security standards.
- The AI tool must comply with industry-standard encryption practices for data in transit and at rest.
- The tool should not retain PII data in an unencrypted or unprocessed state.
- Data transfer protocols must be secure and comply with municipal security requirements.
- The AI system must provide clear documentation regarding how data is used, processed, and stored.
- Citizens should be able to request information about how their data was processed and stored.

- The AI assistant should be evaluated for its ability to improve efficiency and performance without creating undue burdens or risks to users.
- Municipal staff must ensure that AI tools are used to complement human decision-making, not replace it, especially when decisions have significant impacts on citizens.
- Citizens must be informed when AI tools are being used in services they interact with. This can be done via notices on websites, apps, or physical locations.
- Citizens should have the option to opt-out of AI-assisted services where possible and choose a traditional service route.
- When municipal AI systems integrate with third-party platforms (e.g., customer service platforms, chatbots), additional contracts and security agreements should be in place to ensure that privacy standards are maintained.
- All use of generative AI chatbots while performing work for City of Cullman is prohibited without prior approval of the Department Head.
- No City data of any kind may be submitted (copied, typed, etc.) into these platforms.
- All AI-generated content must be reviewed for accuracy before relying on it for work purposes. If a reliable source cannot be found to verify factual information generated by the chatbot, that information cannot be used for work purposes.
- Users must properly cite an AI chatbot when used as a resource.
